Removing PATS immobiliser from Lucas injection pump Converting my van from D to TD and needed to remove PATS so made a quick video I accept no responsibility If you damage or break something.

HOWTO : How to remove PATS from Diesel injection pump

Best Answer: If you are talking about a 2.4 or 2.0 transit the most likely thing to be leaking is the solenoid in the rear of the pump. These are held in with 2 small torx head bolts. They should still be available from ford dealers as this was a common fault. The wiring has to be cut and soldered to the new solenoid wiring, do not try to remove the wiring from the top of the pump body.
