During WWII, the U.S. Army asked Harley-Davidson to design a specification of a motorcycle much like the BMWs used by German forces, with shaft drive, a boxer engine, and several other features that made the BMWs exceptionally reliable and low-maintenance machines. Harley was already producing the WLA, based on its traditional 45-degree V-twin but the army specifically wanted the one feature ...

The VIN code of the motorcycle can tell you as much information as the DNA of a human being. With the help of the Harley VIN decoder, you can find out the technical specs about the body of the bike, the engine type and the equipment that comes with the bike. However, the DNA remains unchanged while the codes of the bikes become different from time to time.
