"The Fourth Grade Slump" I reflected on how my experience was probably similar to what my students experience on state mandated tests. They think they know what they are going to do, they get the test and it's harder than they thought, and they are left with the anxiety of wondering how they could have better prepared themselves.

### **The Socratic Method - garlikov**

Linda M. Gojak As mathematics educators at all levels consider effective implementation and instruction related to state or Common Core standards, a frequently asked question is, "What does it mean to be fluent in mathematics?" The answer, more often than not, is, "Fast and accurate." Building fluency should involve more than speed and accuracy.
