Hey I'm new to "performance" modding on cars. I'm doing all the work myself aside from the tuning. So far I have a 75mm throttle body from an expedition, a forced air intake with high flow filters. I've left the cats that came with it on it but removed everything from the cats back and just ran straight pipes with no mufflers. Thicker sway bars and limited slip differential put into it so far.

Ford Escape recall - WeMakeltSafer

Changing the spark plugs on the 4.6 liter V8 has been a distinct issue for some. While the location of the plug itself is unusual – it is accessed adjacent to the intake manifold and is quite deep in the valley of the engine – the bigger concern of many is the breaking of spark plugs during removal.
