**Fordson dexta engine**

When buying a Fordson Dexta one of the areas to pay close attention to is the engine block, as many people have reported cracks in the block. The Perkins P3 block that is fitted to the Dexta (F3.144) was manufactured by Ford at the Dagenham factory to different specifications to A3.144 engines fitted to MF tractors for example.

The Fordson E27N Major was an upgrade to the Fordson N, and made in England from March 1945, having the same engine and transmission as the Model N, but in a new casting which allowed for a PTO and a hydraulic lift unit manufactured by either Smiths or Varley.

**Fordson - Wikipedia**

The Fordson Super Dexta was built at Dagenham, England from 1962 to 1964. When tractor production switched to the new Basildon, England factory and the 6x series tractors. The Super Dexta was known as the Ford 2000 Diesel in the USA, as the Fordson name was dropped in favour of the Ford brand.

**Fordson Super Dexta | Tractor & Construction Plant Wiki ...**

"The 1958/1959 petrol Dexta, blue/orange, with vertical exhaust (see below for further details). The 1960 restyle (F3.144 engine,diesel), blue/orange, with vertical exhaust; this Dexta had the headlights incorporated into the grille. Also, the side Fordson Dexta decals on the bonnet first appeared (before then, only the nose decal was used).

**ford dexta engine - Fordson Bulletin Board**

Out of seven, Dexta and Super Dexta engines in my possession, four of them have cracked cylinder blocks. One Dexta and three Super Dextas. Initially I thought that this may have been due to the blocks being bored out for the Super Dexta, but as there is only 0.02mm difference between the outside diameters of the liners, this can be discounted.
