The Ford 8N tractors that were being produced around this time no longer carried the "Ferguson System" insignia. Ferguson sued the Ford Motor Co. and eventually won a settlement. In what some say is retaliation, Harry Ferguson began producing his own line of tractors, beginning with the TO-20 in 1948.

**Ferguson Tractor Parts, Specs and Information**

Ford-Ferguson tractor. Note badge below blue Ford badge on bonnet. The first of the N Series built by the Ford Motor Company tractors was the 9N. It included the first three-point hitch system on tractors, which is still utilized today. The three-point hitch system was labelled as the Ferguson System, and Ferguson would eventually break off to become a competitor as first as Ferguson, then ...

There may also have drawing to adapt several other engines to your bell housing. Besides the problem with twisting on the engine block, I would also look into how much fuel economy will be reduced and how much extra noise there will be from a 2 cycle diesel. You could probably replace the tractor for less cost than to repower it.
