Ventilation is the intentional introduction of outdoor air into a space and is mainly used to control indoor air quality by diluting and displacing indoor pollutants; it can also be used for purposes of thermal comfort or dehumidification.. The intentional introduction of outdoor air can be categorized as either mechanical ventilation, or natural ventilation.

A shed is typically a simple, single-story roofed structure in a back garden or on an allotment that is used for storage, hobbies, or as a workshop. Sheds vary considerably in the complexity of their construction and their size, from small open-sided tin-roofed structures to large wood-framed sheds with shingled roofs, windows, and electrical outlets. ...

Only the enforcement of the new silica rule has been delayed until September 23, 2107. The Federal OSHA silica rule is still being implemented and will take effect on June 23, 2017.. OSHA says in their memorandum they are delaying the enforcement because they hope to develop additional guidance materials and train their compliance officers.. I suspect that many individual state plan OSHA (like ...
