Does anyone know what is an acceptable psi for a Seadoo GTS - 4-Tec 1503 (2012). I've bought a ski with 58 hours on it. It looks great but the guy who sold it did a compression test and said its really good but I'm not so sure. The results: 125, 125, 127. Engine was cold. Though by the 3rd cylinder it may have warmed up a little.

I recently purchased the 1503 Rotax 4-tec manual. It lists all part numbers for tools and parts. When I tell BRP dealers I need prices on these parts they say BRP part numbers are 9 digits not 6. I am confused the factory Rotax manual lists all part number with 6 digits.
