Early versions of the engine had a problem with sticking valves – far more evident in the UK (and in cold climates), where a driving style with earlier gear changes is more common than on the Continent – unless a special Ford formulation of oil was used. After small changes in 1995 to fix this problem the engine was known as the Zetec-E.

Ford Zetec engine - Wikipedia

Help, Zetec Engine Problem ??? - posted in 1.6L to 2.0L Zetec Engines (Mk1/Mk2 Mondeo): Hi! I have been having problems with my engine for almost a year now and have taken it to garages, and Ford on multiple occasions and no one can work out what the hell is wrong with it (although Ford claim that it is fixed every time I go to pick it up). When you are driving (normally, warm engine) it feels ...
