I have been using the Garmin 500 (and also other models) for over a year thinking that the only way to get from 'A' to 'B' was entering a 'direct to' destination. I am trying to learn how to enter a full flight plan into the Garmin using all types of navigation types (vor, ndb, apt etc) but no mater what I find on the internet (using Google) I cannot work out how to do it.

How to enter a flight plan including waypoints into a ...

The manual warns you about this on page 8, but doesn't explain why this is so important. Ok, here's some background information why this is so important. It has to do with the FS2004/FSX GPS frame around the simulated Garmin unit. When you've started FS2004 or FSX, you need to undock the GPS (just accept this for the moment).
