WLT motor ford mazda . Gear lining up for injector pump etc

2. In theory shouldn't you put the engine at TDC, mark the pump location to engine before you pull it so that if the engine moves you can still reset it or am I all wet on that as a good practice? 3. If you search the site I've read posts on setting the injector pump timing by watching when fuel squirts out vs. piston location.

Injector Pump Timing (help) | mazda diesel

I took the pump and injectors out to so they can be serviced/calibrated by Randburg Diesel. Refit everything tonight but there is a slight misfire. I suspect the pump timing is out. I lined it up to the marks I made before I took it off but I think when the calibrated the pump my marks are worthless Is it possible to do this by ear or do I need to send it in for the timing to be sorted?
