When Stroke Affects the Frontal Lobe. By Jon Caswell. Of the four lobes that make up the cerebral cortex, the frontal lobe is the largest. It plays a huge role in many of the functions that make us human — memory, language, movement, judgment, abstract thinking. ... Caregiver Guide to Stroke

When Stroke Affects the Frontal Lobe - Stroke Connection ...

Frontal Lobe Stroke Symptoms. Strokes can affect anyone, young or old. They can happen anywhere in the brain, inside or just outside of it. They occur when one or both of the major arteries carrying blood to the brain become clogged with plaque, eventually preventing blood flow. The frontal lobe is part of the cerebrum and is responsible for planning, organizing and problem solving.

Frontal Lobe Stroke Symptoms | Healthfully

What Is the Prognosis After a Frontal Stroke for Recovery? Ten percent of stroke patients make a full recovery, while 25 percent experience minor impairments, according to the National Stroke Association.

Effects of Frontal Lobe Brain Injury and How to Treat them. The symptoms of frontal lobe damage can vary greatly, depending on the extent of the injury and which part of the lobe is damaged. In general, frontal lobe injuries will result in cognitive and behavioral changes, though there can be physical difficulties as well.

Frontal Lobe Brain Injury Recovery: Side Effects & Treatment

Injury to the frontal lobe of the brain can cause temporary or permanent changes in the way a person thinks and functions as well as personality changes. Because it sits at the front of the brain, the frontal lobe is especially vulnerable to damage from traumatic injury. Damage to the frontal area of the brain causes a wide range of dysfunction related to the specific area of injury.
