Hello all, I am new here and would like to ask for any info about an older Bolens rear engine rider. Model number under seat is 13067. Also has number 2133 on side of mower.....I assume that is related to the fact that it is a 12 h.p. 33 inch cut. Also near the model number under the seat is "Garden Way Inc.". I desperately need a parts breakdown so I can find a deck engagement cable.

Hello rer fans, I picked up a 12hp Bolens recently in a package deal, havent had time to look it over much, I'd guess it to be mid 80s, its complete but the PO took the air cleaner and carb off, those are stashed under the seat in the batt box at the moment.
